DETAILED ACTION

This Office Action is in response to the Applicants' amendment filed September 11, 2003.

Election/Restrictions

Newly submitted claim 17 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Inventions a ceramic heater and a method of making a ceramic heater are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 17 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Art Unit: 2822

Allowable Subject Matter

Claims 1-3, 5-8 and 10-16 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art with respect to ceramic structures:

Arakawa et al. (5,563,764)

Yamamoto et al. (5,582,215).
